OPERATIONS AND ALGEB	BRAIC THINKING (OA)
----------------------	---------------------

Second Grade Content Standards

Sadlier Math, Grade 2

2.OA.A Represent and solve problems involving addition and subtraction.

2.0A.A.1 Use addition and subtraction within 100 to solve one- and two-step word problems. Represent a word problem as an equation with a symbol for the unknown.

Chapter 1: 1-1, 1-2, 1-7 & 1-9

Chapter 2: 2-1 through 2-3, 2-10 & 2-12

Chapter 4: 4-8 & 4-9

2.OA.B Add and subtract within 20.

2.OA.B.2 Fluently add and subtract within 20. By the end of Grade 2, know from memory all sums of two one-digit numbers.

Chapter 1: 1-3 through 1-10 Chapter 2: 2-2, 2-4 through 2-1

2.OA.C Work with equal groups of objects to gain foundations for multiplication.

2.0A.C.3 Determine whether a group of objects (up to 20) has an odd or even number of members (e.g., by pairing objects or counting them by 2's).

Chapter 10: 10-1 & 10-2

2.0A.C.4 Use addition to find the total number of objects arranged in rectangular arrays (with up to 5 rows and 5 columns). Write an equation to express the total as a sum of equal addends.

Chapter 10: 10-3 through 10-5

NUMBER AND OPERATIONS IN BASE TEN (NBT)

Second Grade Content Standards

Sadlier Math, Grade 2

2.NBT.A Understand place value.

2.NBT.A.1 Understand that the three digits of a three-digit number represent groups of hundreds, tens, and ones (e.g., 706 equals 7 hundreds, 0 tens, and 6 ones and also equals 70 tens and 6 ones). Understand the following as special cases:

a. 100 can be thought of as a bundle of ten tens — called a "hundred." **Chapter 7: 7-1**

Sadlier School

NUMBER AND OPERATIONS IN BASE TEN (NBT)		
Second Grade Content Standards	Sadlier Math, Grade 2	
b. The numbers 100, 200, 300, 400, 500, 600, 700, 800, 900 refer to one, two, three, four, five, six, seven, eight, or nine hundreds (and 0 tens and 0 ones).	Chapter 7: 7-1	
2.NBT.A.2 Count within 1000; skip count by 5's, 10's and 100's.	Chapter 3: 3-5 Chapter 7: 7-5	
2.NBT.A.3 Read and write numbers up to 1000 using base-ten numerals, number names, and expanded form.	Chapter 3: 3-1 & 3-2 Chapter 7: 7-2 through 7-4	
2.NBT.A.4 Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using >, =, and < symbols to record the results of comparisons.	Chapter 7: 7-6 & 7-7	

2.NBT.B Use place value understanding and properties of operations to add and subtract. **2.NBT.B.5** Fluently add and subtract within Chapter 1: 1-1 through 1-10 100 using strategies based on place value, Chapter 2: 2-1 through 2-12 properties of operations, and/or the Chapter 4: 4-1 through 4-10 relationship between addition and subtraction. Chapter 5: 5-1 through 5-9 2.NBT.B.6 Add up to three two-digit numbers Chapter 4: 4-1 through 4-10 using strategies based on place value and properties of operations. **2.NBT.B.7** Demonstrate understanding of Chapter 1: 1-1 through 1-10 addition and subtraction within 1000, Chapter 2: 2-1 through 2-11 connecting objects or drawings to strategies Chapter 4: 4-1 through 4-9 based on place value (including multiples Chapter 5: 5-1 through 5-8 of 10), properties of operations, and/or the **Chapter 7: 7-8** relationship between addition and subtraction. Chapter 8: 8-1 through 8-8 Relate the strategy to a written form. Chapter 9: 9-1 through 9-9 2.NBT.B.8 Mentally add 10 or 100 to a given Chapter 8: 8-1 number in the range of 100 and 900, and Chapter 9: 9-1 mentally subtract 10 or 100 from a given number in the range of 100 and 900.

NUMBER AND OPERATIONS IN BASE TEN (NBT)		
Second Grade Content Standards	Sadlier Math, Grade 2	
2.NBT.B.9 Explain why addition and subtraction strategies work, using place value and the properties of operations. (Explanations may be supported by drawings or objects.)	Chapter 5: 5-7 Chapter 8: 8-2 through 8-8 Chapter 9: 9-2 through 9-9	
MEASUREMENT AND DATA (MD)		
Second Grade Content Standards	Sadlier Math, Grade 2	
2.MD.A Measure and estimate lengths in standard units		
2.MD.A.1 Measure the length of an object by selecting and using appropriate tools (e.g., ruler, meter stick, yardstick, measuring tape).	Chapter 6: 6-1 through 6-6	
2.MD.A.2 Measure the length of an object twice, using different standard length units for the two measurements; describe how the two measurements relate to the size of the unit chosen. Understand that depending on the size of the unit, the number of units for the same length varies.	Chapter 6: 6-7	
2.MD.A.3 Estimate lengths using units of inches, feet, centimeters, and meters.	Chapter 6: 6-1 through 6-5	
2.MD.A.4 Measure to determine how much longer one object is than another, expressing the length difference in terms of a standard length unit.	Chapter 6: 6-8 & 6-9	
2.MD.B Relate addition and subtraction to length.		
2.MD.B.5 Use addition and subtraction within 100 to solve word problems involving lengths that	Chapter 6: 6-9 & 6-10	

are given in the same unit.

2.MD.D Represent and interpret data.

together, take-apart, and compare problems using information presented in the graph.

MEASUREMENT AND DATA (MD)		
Second Grade Content Standards	Sadlier Math, Grade 2	
2.MD.B.6 Represent whole numbers as lengths from 0 on a number line diagram with equally spaced points corresponding to the numbers 0, 1, 2,, and represent whole-number sums and differences within 100 on a number line diagram.	Chapter 6: 6-11 & 6-12	

2.MD.C Work with time and money.		
2.MD.C.7 Tell and write time from analog and digital clocks to the nearest five minutes, using a.m. and p.m.	Chapter 12: 12-9 through 12-12	
2.MD.C.8 Solve word problems involving collections of money, including dollar bills, quarters, dimes, nickels, and pennies. Record the total using \$ and ¢ appropriately.	Chapter 12: 12-1 through 12-8	

2.MD.D.9 Generate measurement data by measuring lengths of several objects to the nearest whole unit, or by making repeated measurements of the same object. Show the measurements by making a line plot, where the horizontal scale is marked off in whole-number units. Chapter 11: 11-1 & 11-2 Chapter 11: 11-1 & 11-2 Chapter 11: 11-1 & 11-2 Chapter 11: 11-1 & 11-2

GEOMETRY (G)		
Second Grade Content Standards	Sadlier Math, Grade 2	
2.G.A Reason with shapes and their attributes.		
2.G.A.1 Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces.¹ Identify triangles, quadrilaterals, pentagons, hexagons, and cubes.	Chapter 13: 13-1 through 13-4	
2.G.A.2 Partition a rectangle into rows and columns of same-size rectangles and count to find the total number of rectangles.	Chapter 14: 14-1	
2.G.A.3 Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words halves, thirds, fourths, half of, third of, fourth of, and describe the whole as two halves, three thirds, or four fourths. Recognize that equal shares of identical wholes need not have the same shape.	Chapter 14: 14-2 through 14-4
