OPERATIONS AND ALGEBRAIC THINKING (2.0A)

Grade 2 Content Standards

Sadlier Math, Grade 2

2.OA All students will represent and solve problems involving addition and subtraction.

 Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions (e.g., by using drawings and equations with a symbol for the unknown number to represent the problem). Chapter 1: 1-1, 1-2, 1-7 & 1-9 Chapter 2: 2-1 through 2-3, 2-10 & 2-12

Chapter 4: 4-8 & 4-9

2.0A All students will add and subtract within 20.

 Fluently add and subtract within 20 using mental strategies. By end of Grade 2, know from memory all sums of two one-digit numbers. Chapter 1: 1-3 through 1-10 Chapter 2: 2-2, 2-4 through 2-1

2.OA All students will work with equal groups of objects to gain foundations for multiplication.

3. Determine whether a group of objects (up to 20) has an odd or even number of members, (e.g., by pairing objects or counting them by 2s; write an equation to express an even number as a sum of two equal addends).

Chapter 10: 10-1 & 10-2

4. Use addition to find the total number of objects arranged in rectangular arrays with up to 5 rows and up to 5 columns; write an equation to express the total as a sum of equal addends.

Chapter 10: 10-3 through 10-5

NUMBER AND OPERATIONS IN BASE TEN (2.NBT)

Grade 2 Content Standards

Sadlier Math, Grade 2

2.NBT All students will understand place value.

a. 100 can be thought of as a bundle of ten

- 1. Understand that the three digits of a three-digit number represent amounts of hundreds, tens, and ones; e.g., 706 equals 7 hundreds, 0 tens, and 6 ones. Understand the following as special cases:
 - tens called a "hundred." b. The numbers 100, 200, 300, 400, 500, 600, 700, 800, 900 refer to one, two, three, four, five, six, seven, eight, or nine hundreds (and 0 tens and 0 ones).

Chapter 7: 7-1

Chapter 7: 7-1

2. Count within 1000; skip-count by 5s, 10s, and 100s.

Chapter 3: 3-5 Chapter 7: 7-5

3. Read and write numbers to 1000 using baseten numerals, number names, and expanded form.

Chapter 3: 3-1 & 3-2 Chapter 7: 7-2 through 7-4

4. Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using >, =, and < symbols to record the results of comparisons.

Chapter 7: 7-6 & 7-7

2.NBT All students will use place value understanding and properties of operations to add and subtract.

5. Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.

Chapter 1: 1-1 through 1-10

Chapter 2: 2-1 through 2-12

Chapter 4: 4-1 through 4-10 Chapter 5: 5-1 through 5-9

6. Add up to four two-digit numbers using strategies based on place value and properties of operations.

Chapter 4: 4-1 through 4-10

NUMBER AND OPERATIONS IN BASE TEN (2.NBT)

Grade 2 Content Standards Sadlier Math, Grade 2 7. Add and subtract within 1000, using concrete Chapter 1: 1-1 through 1-10 models or drawings and strategies based on Chapter 2: 2-1 through 2-11 place value, properties of operations, and/or Chapter 4: 4-1 through 4-9 the relationship between addition and Chapter 5: 5-1 through 5-8 subtraction; relate the strategy to a written **Chapter 7: 7-8** method. Understand that in adding or Chapter 8: 8-1 through 8-8 subtracting three- digit numbers, one adds Chapter 9: 9-1 through 9-9 or subtracts hundreds and hundreds, tens and tens, ones and ones; and sometimes it is necessary to compose or decompose tens or hundreds. 8. Mentally add 10 or 100 to a given number Chapter 8: 8-1 100-900, and mentally subtract 10 or 100 Chapter 9: 9-1 from a given number 100-900. 9. Explain why addition and subtraction **Chapter 5: 5-7** strategies work, using place value and the Chapter 8: 8-2 through 8-8 properties of operations. (Explanations may Chapter 9: 9-2 through 9-9 be supported by visual representations.)

MEASUREMENT AND DATA (2.MD)

Cunda 2	Contont	Chandauda	
(TRACE)	CONTENT	Standards	

Sadlier Math, Grade 2

2.MD All students will measure and estimate lengths in standard units			
1.	Measure the length of an object by selecting and using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.	Chapter 6: 6-1 through 6-6	
2.	Measure the length of an object twice, using length units of different lengths for the two measurements; describe how the two measurements relate to the size of the unit chosen.	Chapter 6: 6-7	
3.	Estimate lengths using units of inches, feet, centimeters, and meters.	Chapter 6: 6-1 through 6-5	

MEASUREMENT AND DATA (2.MD)

Grade 2 Content Standards

4. Measure to determine how much longer one

5. Use addition and subtraction within 100 to

number to represent the problem.

diagram.

and p.m.

do you have?

6. Represent whole numbers as lengths from

O on a number line diagram with equally spaced points corresponding to the numbers 0, 1, 2, ..., and represent whole-number sums and differences within 100 on a number line

2.MD All students will work with time and money.

clocks to the nearest five minutes, using a.m.

quarters, dimes, nickels, and pennies, using \$ and ¢ symbols appropriately. Example: If you have 2 dimes and 3 pennies, how many cents

7. Tell and write time from analog and digital

8. Solve word problems involving dollar bills,

solve word problems involving lengths that are given in the same units (e.g., by using drawings, such as drawings of rulers) and equations with a symbol for the unknown

object is than another, expressing the length difference in terms of a standard length unit.

2.MD All students will relate addition and subtraction to length.

Sadlier Math, Grade 2
Chapter 6: 6-8 & 6-9
tion to length.
Chapter 6: 6-9 & 6-10
Chapter 6: 6-11 & 6-12
Chapter 12: 12-9 through 12-12
Chapter 12: 12-1 through 12-8
a.
Chapter 11: 11-1 & 11-2

2.MD All students will represent and interpret data.

9. Generate measurement data by measuring lengths of several objects to the nearest whole unit, or by making repeated measurements of the same object. Show the continued

MEASUREMENT AND DATA (2.MD)		
Grade 2 Content Standards	Sadlier Math, Grade 2	
measurements by making a line plot, where the horizontal scale is marked off in wholenumber units.		
10. Draw a picture graph and a bar graph (with single-unit scale) to represent a data set with up to four categories. Solve simple puttogether, take-apart, and compare problems using information presented in a bar graph.	Chapter 11: 11-3 through 11-7	

Grade 2 Content Standards		Sadlier Math, Grade 2		
2.0	2.G All students will reason with shapes and their attributes.			
1.	Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. Identify triangles, quadrilaterals, pentagons, hexagons, and cubes.	Chapter 13: 13-1 through 13-4		
2.	Partition a rectangle into rows and columns of same-size squares and count to find the total number of them.	Chapter 14: 14-1		
3.	Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words halves, thirds, half of, a third of, etc., and describe the whole as two halves, three thirds, four fourths. Recognize that equal shares of identical wholes need not have the same shape.	Chapter 14: 14-2 through 14-4		

GEOMETRY (2.G)
